Successfully Leveraging Professional Associations (1:10-1:50pm ET)

Mark your calendar and come join us for CAE Forum! CAE Forum is a live, real-time, online, academic forum where members of the CAE community give non-technical presentations on topics of value to the CAE community. CAE Forum is about sharing your ideas, knowledge, and expertise to empower and strengthen our community. It's that simple. CAE Forum presentations are normally held on the third Wednesday of each month during the Fall and Spring semesters.

Date: Wednesday, 18 Oct 2017

Time: 1:10-1:50pm ET

Location: <https://caecommunity.zoom.us/my/caeforum>

Title/Topic: Successfully Leveraging Professional Associations

Audience: Students and Professors

Presenter(s): Anna Carlin (CISA from Fullerton College)

Description:

Professional associations strive to further a profession, such as cyber security. They usually facilitate entry into the profession, create and maintain standards, and represent the profession in discussions with other bodies such as legislative or regulatory bodies. ISACA, ISSA (Information Systems Security Association), and HTCIA (High Technology Crime Investigation Association) are widely recognized professional associations in the cyber security profession.

Professional associations could enrich colleges and universities in curriculum development, student enrichment (student clubs, professional association dinner meetings, guest lecturers, and certifications), and ultimately employment. We will discuss how you can leverage professional associations to your advantage, whether you are a student, educator, industry professional, or employer.

CAE Forum is also recorded

A recording of the live presentation will be made available for the world to see at the following address:
