Cybercrime Post-incident Leadership Model (1:10-1:50pm ET)

Mark your calendar and come join us for CAE Forum! CAE Forum is a live, real-time, online, academic forum where members of the CAE community give non-technical presentations on topics of value to the CAE community. CAE Forum is about sharing your ideas, knowledge, and expertise to empower and strengthen our community. It's that simple. CAE Forum presentations are normally held on the third Wednesday of each month during the Fall and Spring semesters.

Date:

Time: 1:10-1:50pm ET

Location: <https://caecommunity.zoom.us/my/caeforum>

Just log in as "Guest" and enter your name. No password required.

Title/Topic:

Audience: Students, Professors, Government

Presenter(s): Dr. Simon Cleveland from City University of Seattle

Description: Cybercrimes are facts of the modern technological society. While numerous studies propose a variety of prescriptive practices to combat cybercrimes, there is scant research to address how organizational leaders should minimize the impact of cybercrimes on their companies and the community after they have occurred. This presentation addresses the steps leaders should take in the aftermath of cybercrimes and proposes a four-stage model consisting of best practices to guide leaders in preparing, responding, and recovering from a digital or cybersecurity attack.

A recording of the live presentation will be available within 48 hours of the presentation at:
