

HCC CSNT students

The core cyber defense education program at **Honolulu Community College (HCC)** is the Computing, Security, and Networking Technology (CSNT) Program. Previously known as the Computing, Security, Electronics, and Technology (CENT) Program, the new name reflects the focus of the program and becomes official starting in the fall of 2019 at HCC.

The CSNT program provides students with extensive hands-on training in information and communication technology. Most courses include a laboratory component where students gain experience configuring and managing physical and/or virtual systems located in the classrooms or the CSNT datacenter. The embedded Certificate of Achievement (CA) in Information Assurance (IA) is built on the Knowledge Unit (KU) requirements for a

collegiate institution to be recognized as a CAE-2Y. The program supports industry recognized certifications including A+, LINUX+, Security+, CCNA, and MCP.

The CSNT program also offers third year courses that articulate to the Bachelor of Applied Science in Information Security Assurance at the University of Hawaii at West O’ahu. Non-credit education course offerings at HCC are supported by the Pacific Center for Advanced Technology Training (PCATT). PCATT offers an extensive selection of cybersecurity related courses for industry professionals looking to upgrade their skills or learn new skills. Cybersecurity related courses offered include, Security+, CISSP, CEH, CCNA Security, MCSE, and much more. PCATT also offers customized training to meet the needs of your organization.
