

Middle Georgia State University (MGA) is a regionally focused university serving 7,800 traditional and adult students with campuses in Macon, Cochran, Dublin, Eastman, and Warner Robins. The University is one of the state's best values in public higher education; a student can earn a bachelor's degree for about \$20,000, which is about \$2,500 in tuition and fees per semester.

MGA's School of Information Technology offers a Bachelor of Science in Information Technology (BSIT) program which is accredited by the Computing Accreditation Commission of ABET and includes a concentration in Cybersecurity.

The School also offers a fully online Master of Science in Information Technology with a concentration in Cybersecurity and Forensics.

With a student enrollment of nearly 950 students, the School of Information Technology is fully equipped to produce the next generation of technology and cybersecurity experts. Students have one-on-one interaction with highly qualified faculty who are actively engaged in research publications and scholarly activities.

Students utilize state-of-the-art digital forensics and security labs. Outside the classroom, students participate in cyber defense competitions. Each year the School's Center for Cybersecurity Education and Applied Research (CCEAR) hosts an Academic Cybersecurity Seminar to provide students and the community the opportunity to network with experts in the cybersecurity field.
