

Upcoming Intelligence Systems Lab at Bellevue University

Bellevue University, a non-profit university with more than 50,000 graduates, is one of the nation's leaders in preparing students for lifelong career success. Routinely ranked among the nation's top-military friendly and accessible institutions, Bellevue University offers innovative education programs that produce professionals who are well-trained and have full mastery of the skills needed to protect our nation's infrastructure.

With more than 80 degrees offered through online and on campus programs, including a Bachelor and Master of Science in Cybersecurity, a Graduate Cybersecurity Certificate, and several programs offering a cybersecurity emphasis, Bellevue University stands at the forefront of applied cybersecurity education. Through its Center for Cybersecurity Education, the University offers a range of interdisciplinary degrees that bring

together information assurance, business, systems and network administration, security management, and more.

A team of qualified, passionate faculty with extensive experience in professional environments ranging from U.S. military to Fortune 500 organizations to technology start-ups, helps ensure students are prepared to tackle real life challenges across the information technology spectrum. The new C&A Industries Intelligence Systems Lab on Bellevue University's Nebraska campus leverages the common technical ground that exists among the fields of cybersecurity, systems and network administration, and data science. Starting in 2019, the lab will serve as a state-of-the-art venue to train security operations and provide students with the opportunity to learn and practice skills in a virtualized environment using a suite of open-source and commercial tools.
