SAINT LEO UNIVERSITY

Saint Leo University Campus

Saint Leo University offers traditional-age undergraduates, working adults, and military veterans multiple ways to earn a degree in cybersecurity that will prepare them well for success in the field. Degree programs are available beginning at the associate degree level through the master's degree. Additionally, several degree options are available online or at various regional education centers away from the university's main campus north of Tampa, FL, including locations in Georgia, Virginia, and downtown Tampa.

Starting at the associate degree level, a learner can opt to study at the university's main campus or online. Those graduates can continue their studies and enroll in the Bachelor of Science program, offered at the main campus (on a daytime schedule or with weekend and evening classes), online, or at some centers in Georgia and Virginia. Students new

to Saint Leo (without the AA) may apply for direct admission into the four-year program as well. The most advanced degree available, the Master of Science, is similarly available at the main campus, online, in downtown Tampa, and at Virginia locations. The master's curriculum is aligned with requirements set by the National Security Agency as well as with requirements for many industry certifications.

The National Security Agency and the Department of Homeland Security have designated Saint Leo University as a National Center of Academic Excellence in Cyber Defense Education (CAE-CDE) through 2021.

Saint Leo is private, nonprofit university, founded by Catholic educators, and open to people of all backgrounds.

DESIGNATIONS

• **CAE – Cyber Defense Education**
