CALIFORNIA STATE POLYTECHNIC UNIVERSITY, POMONA

CPP Student Services Building

California State Polytechnic University, Pomona (CPP) is among the best public universities in the West and is nationally ranked for helping students achieve economic success. As an inclusive polytechnic university, we cultivate success through experiential learning, discovery, and innovation. Our graduates are ready to succeed in the professional world on day one.

Faculty in all disciplines put theory to practice, providing students with opportunities to apply their knowledge in hands-on projects, research collaborations, and valuable internship and service-learning programs.

Since its initial designation as a National Center of Academic Excellence in 2004, the California Center for Cyber Risk (formerly the Center for Information Assurance) has been a leader in cybersecurity education, earning the respect of government officials, industry leaders, and national news media. The university has become a top destination for recruiters seeking talented cybersecurity graduates.

CPP recently launched a **Cyber Security Instructional Research Project (CSIRP)** promoting innovative teaching, research and collaboration.

The first project housed by CSIRP is a student-run security operations center and malware analysis lab funded by Northrop Grumman and led jointly by computer information systems Professor Ron Pike and computer science Professor Mohammad Husain. The cross-disciplinary project involves students from multiple disciplines conducting research, developing skills for the workforce, and training fellow students.

DESIGNATIONS

• **CAE – Cyber Defense Education**
