

Texas A&M University Campus

Texas A&M University pursues teaching, research, and service at the exceptionally high levels expected of America's great universities. Seeking to advance the collective cybersecurity knowledge, capabilities, and practices, through ground-breaking research, high-impact education, and mutually beneficial partnerships, our mission is to enhance national security through research and education. Texas A&M University stands committed to making significant contributions through the development of transformational cybersecurity advancements.

Education:

Texas A&M University has a long history of providing information assurance and cybersecurity education, dating back to the mid-1990s. Today, in our undergraduate and graduate programs, students have an increasing number of interdisciplinary, high

impact, and innovative opportunities available to expand their cybersecurity knowledge and skills. Our students upon graduation are prepared for the challenges they will face in their personal and professional lives.

Research:

As one of the world's leading research institutions, and one of only 17 institutions to hold the triple designation as a land-grant, sea-grant, and space-grant institution, Texas A&M is at the forefront in making significant contributions to scholarship and discovery, including that of science and technology. With world-class researchers and state-of-the-art facilities, we are leaders in cybersecurity innovation. The combination of great faculty, great facilities, and great students ensures that A&M is moving to the forefront of cybersecurity research and education.

DESIGNATIONS

- CAE - Cyber Defense Education
- CAE - Cyber Defense Research
- CAE - Cyber Operations
