

# Cybersecurity Across Disciplines Conference 2023

August 1-2, 2023 • Moraine Valley Community College

**Travel Stipends Available!**

Welcome, cybersecurity educators! Join us at the Cybersecurity Across Disciplines (CyAD) Conference, a unique event tailored specifically to meet the needs of educators like you. Discover innovative approaches to engage your students through hands-on activities, explore the use of new technologies in the classroom, and learn how to teach cybersecurity students about operational security across different disciplines.

Register now for the  
Cybersecurity Across Disciplines  
Conference 2023!

## Engage Your Students with Hands-On Activities

At the CyAD Conference, we understand the importance of hands-on learning. Discover exciting hands-on activities and interactive workshops that will help you engage your students and foster their cybersecurity skills. Learn about the latest teaching methodologies and strategies that promote active participation and practical application, allowing your students to develop a strong foundation in cybersecurity.

## Leverage New Technologies in the Classroom

Stay at the forefront of technology in cybersecurity education. The CyAD Conference provides a platform to explore cutting-edge tools and resources that can enhance your classroom instruction. Discover how emerging technologies such as artificial intelligence, machine learning, and blockchain can be integrated into your curriculum to provide students with real-world cybersecurity experiences.

## Operational Security Across Disciplines

In today's interconnected world, operational security is crucial across all disciplines. Join us at the CyAD Conference to learn how to teach cybersecurity students about operational security within different fields. Gain insights from speakers representing various professions, who will provide a unique perspective on cybersecurity challenges and solutions. Expand your understanding of how cybersecurity impacts different industries, including business, healthcare, manufacturing, and critical infrastructure.

## Network with Industry Professionals and Peers

The CyAD Conference offers a valuable opportunity to network with industry professionals and connect with like-minded educators. Engage in discussions, share best practices, and collaborate with colleagues from around the world. Benefit from the diverse perspectives and experiences of our speakers, who come from various professions and backgrounds. Together, we can strengthen cybersecurity education and inspire the next generation of cybersecurity professionals.

## Join Us at the CyAD Conference 2023

Don't miss out on this exceptional occasion to empower yourself as a cybersecurity educator. Register now for the Cybersecurity Across Disciplines (CyAD) Conference and unlock a world of innovative teaching methods, hands-on activities, and insights into operational security. Discover how to integrate new technologies into your classroom and gain a broader understanding of cybersecurity's role in different disciplines. We look forward to welcoming you to the CyAD Conference!
