ETHICS IN CYBERSECURITY

CYBERSECURITY CAN BE USED FOR GOOD OR BAD. DO YOU KNOW THE RIGHT CALL?

November 5, 2021 • 9:00am-Noon

Virtually via Zoom

Firsthand Experiences

Ethics is a key component to cybersecurity. Hear from industry professionals how ethics come into play on an international scale in cybersecurity and how ethical challenges across the increasingly interconnected world are contributing to a need for higher cybersecurity vigilance and awareness.

Guest Speakers

Dr. Andrea Little-Limbago: A computational social scientist specializing in the intersection of technology, national security, and information security.
Alexander White: Principal Architect and CEO of The White Group & Company, which specializes in Enterprise Risk Management

Jacqueline Muna Musiitwa Esz: An international attorney who advises clients on technology risk and governance.

You will receive the Zoom link for the event upon registration.
