Stevens Institute of Technology is a premier, private research university in Hoboken, New Jersey, overlooking the Manhattan skyline.

Since its founding in 1870, technological innovation and entrepreneurship have been the hallmark of Stevens' education and research. Within the university’s schools, Stevens prepares its nearly 9,000 undergraduate and graduate students for an increasingly complex and technology-centric world. Its exceptional students collaborate closely with world-class faculty in an interdisciplinary, student-centric, entrepreneurial environment, readying them to fuel the innovation economy.

Academic and research programs spanning finance, computing, engineering and the arts expand the frontiers of science and leverage technology to confront the most challenging problems of our time.

Stevens is consistently ranked among the nation’s leaders in ROI and career services and is in the top 1% nationally of colleges with the highest-paid graduates.

Stevens offers a wide range of Cybersecurity-focused degree programs at the bachelor, master's, and Ph.D. levels across all schools. Stevens has held the designation as National Center of Academic Excellence in Cyber Defense Education (formerly Information Assurance Education) since 2003.

The validated program of study is the B.S. in Cybersecurity which is geared to provide students with a comprehensive expertise in Cybersecurity in the context of Stevens’ traditional broad education. Stevens was one of the first institutions in the nation to offer a dedicated degree program in Cybersecurity at the undergraduate level, graduating its first class in 2011. In 2008, Stevens was one of the first institutions to also receive the designation as National Center of Academic Excellence in Cyber Research.

### DESIGNATIONS
- CAE-Cyber Defense
