Virtual 2020 CAE Designation Fast Track Workshop

Friday March 23, 2020
11:00am - 3:00pm Pacific Time (PT)

Presented by:
Corrinne Sande

The Virtual 2020 CAE Designation Fast Track Workshop is a four-hour overview of the updated CAE application process. This fast track workshop will cover the updated submission timeline and the two-part application process and requirements in half the time of a regular workshop. To make sure all the required material is covered, the fast track workshop will limit the amount of time for questions and discussion.

The 2020 CAE workshop will review the required two-part application process required for designation as a Center of Academic Excellence in Cybersecurity (CAE) in Cyber Defense.

Part 1: Program of Study Validation
Training on the process and materials needed to successfully validate your program of study before pursuing the CAE designation.

Part 2: CAE Designation
The second part of the training will review the required criteria and the necessary resources, capacity and processes needed to successfully earn the CAE designation.

To register for the workshops, complete the on-line registration https://ncytecenter.wildapricot.org/event-3752719
